IN THE CLAIMS:

- 22. [AMENDED] An anti-infective medical article prepared by exposing a polymercontaining medical article, for an effective period of time, to a treatment solution
 comprising between about 0.1 and 5 percent of a metal compound, between about
 0.1 and 20 percent triclosan, and between about 0.5 and 10 percent of a hydrogel,
 wherein neither the treatment solution nor the medical article contain
 chlorhexidine or a chlorhexidine salt.
- 23. [ORIGINAL] The anti-infective medical article of claim 22, where the metal compound is a silver compound.
- 24. [ORIGINAL] The anti-infective medical article of claim 22, where the hydrogel comprises polyvinyl pyrrolidone.
- 25. [AMENDED] An anti-infective medical article prepared by exposing a polymer-containing medical article, for an effective period of time, to a treatment solution comprising between about 0.1 and 5 percent of a silver compound, between about 0.1 and 20 percent of triclosan, and between about 1 and 5 percent of an anti-inflammatory agent, wherein neither the treatment solution nor the medical article contain chlorhexidine or a chlorhexidine salt.
- 26. [ORIGINAL] The anti-infective medical article of claim 25, where the anti-inflammatory agent is salicylic acid or a derivative thereof.
- 27. [ORIGINAL] The anti-infective medical article of claim 25, where the treatment solution further comprises an additional antimicrobial agent.

NY02:445070.1 2

- 28. [AMENDED] The anti-infective medical article of claim 27, where the additional antimicrobial agent is selected from the group consisting of chlorhexidine, a chlorhexidine salt, gramicidin, polymixin, norfloxacin, sulfamylon, polyhexamethylene biguanide, alexidine, minocycline, iodine benzalkonium chloride and rifampicin.
- 29. [ORIGINAL] The anti-infective medical article of claim 25 which is a polytetrafluoroethylene graft.
